On April 5, 2018, this writer attended a meeting at the Kyger Creek Station to review the Emergency Action Plan for each CCR impoundment with the local Emergency Management Agency. This meeting satisfied the requirement of the CCR rule to meet with Emergency Responders yearly to review required actions in the event of an emergency involving a CCR impoundment at the Kyger Creek Station. There were no revisions required at the time of the meeting, and a signed review verification statement for each unit is attached.
