Washington, DC 20460

Dear Administrator Regan:

**Re: Ohio Valley Electric Corporation
Request to withdraw Kyger Creek Station site-specific alternative to
initiation of closure demonstration**

The Ohio Valley Electric Corporation (OVEC) submitted a site-specific alternative to the April 11, 2021 deadline to initiate closure of the Kyger Creek Station's coal combustion residual surface impoundments, the South Fly Ash Pond and Boiler Slag Pond, pursuant to 40 CFR 257.103(f)(1). This letter is being written to notify USEPA that OVEC has completed all facility modifications necessary to permanently cease receipt of all CCR and non-CCR waste streams in the Boiler Slag Pond and South Fly Ash Pond in compliance with Part A of the CCR Rule. As a result, OVEC is requesting to withdraw the demonstration request that was submitted for the Kyger Creek Station.

Sincerely,

A handwritten signature in cursive script that reads "J. Michael Brown".

J. Michael Brown
Environmental, Safety & Health Director
