**Re: Ohio Valley Electric Corporation
Kyger Creek Station
Notification of CCR Information Posting**

Dear Mr. Butler:

As required by 40 CFR 257.105(h), the Ohio Valley electric Corporation (OVEC) is providing notification to the Director of the Ohio Environmental Protection Agency that a groundwater monitoring system meeting the requirements of 40 CFR 257.91(f)(a) through (e) has been installed at the facility's Coal Combustion Residual (CCR) units. Information documenting the design, installation, and development of the system has been reviewed and certified by a qualified professional engineer, and was posted to the facility's publically accessible internet site, as well as placed in the facility's operating record on October 17, 2017.

In addition to the information regarding the design, installation, and development of the CCR units' groundwater monitoring systems, OVEC is also providing notification to the Commissioner that a groundwater sampling and analysis program has been developed that includes the selection of a statistical method as required by 40 CFR 257.93(f), and that the monitoring program has been initiated, which includes the completion of a minimum of eight background sampling events, in accordance with 40 CFR 257.94(b). A qualified professional engineer has reviewed the program and certified that the methods chosen to demonstrate compliance meet the intent of the rule. This information was also posted to the facility's publically accessible internet site, as well as the facility's operating record on October 17, 2017.

This information can be viewed on OVEC's publically accessible internet site at:
<http://www.ovec.com/CCRCompliance.php>

If you have any questions, or require any additional information, please call me at (740) 289-7267.

Sincerely,

A handwritten signature in blue ink that reads "Gabriel S. Coriell". The signature is written in a cursive style with a large initial 'G'.

Gabriel S. Coriell
